1. The Russians have made available one million marks for a Food Research Institute in Potsdam and two million marks for a similar Institute in Rostock, presumably out of reparation funds. They have appointed Dr. Ullmann (former Nazi Party member, SA man, and organic chemist and rubber specialist at the Kaiser Wilhelm Institute for Chemistry) to the Chemical Research Section under Professor Wilhelm Ziegelmaier of the Central Administration.
2. A number of other, younger Berlin physicists and chemists, who returned from the western zones, have also found positions and good contracts during the past month, in Buch and Oberschöneweide.
